PROJECTS

Payrentz a comprehensive e-commerce platform facilitating the rental and purchase of appliances like TVs and refrigerators in urban centers. Led the development and integration of **APIs** to streamline inventory management and transaction processing.

 [PAYRENTZ](#)

Worked on **Truliv**, a dynamic website specializing in booking rooms, holiday homes, and coliving spaces for diverse customer needs. Spearheaded the implementation of interactive web styles and animations using advanced CSS and JavaScript frameworks, fostering heightened user engagement and seamless navigation

 [TRULIV](#)

PageSpeed Insights, a web application dedicated to monitoring and analyzing webpage performance metrics such as load times, responsiveness, and SEO factors. Implemented tools and features to provide actionable insights for optimizing website speed and enhancing user experience. Collaborated with SEO experts to integrate performance benchmarks and recommendations, ensuring websites meet industry standards and achieve higher search engine rankings.

 [PageSpeed Insights](#)

HustleWave is a web-based chat application built using Next.js and styled with Tailwind CSS, it offers users basic chat features such as real-time messaging, emoji support, and user authentication. Leveraging Firebase as the backend infrastructure ensures reliable data storage and synchronization across devices, enhancing user experience with seamless message delivery.

 [HustleWave](#)

Focus Portal is an employee portal project utilizing HTML, CSS, JS, PHP, and SQL to manage daily tasks. Allows task tracking and seamless access for employees.
